

Science & Technology: Inventions and Discoveries, 1750-1900

These are some of the major innovations/discoveries that have come out of the period we have studied in class, known as the Industrial Revolution. You will have to choose **THREE** to research. There are a lot of other inventions/discoveries too! If there is something you would like to research that is not on this list, you may do so (just okay it with me first please).

The Spinning Jenny

Photography

The Typewriter

Vaccinations

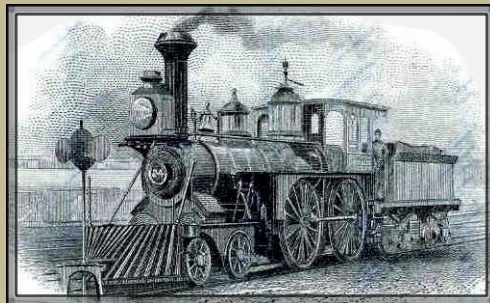

The Bicycle

The Flush Toilet

The Hot Air Balloon

The Steam Locomotive

The Telegraph

The Lightbulb	The Sewing Machine	The Steamboat	The Revolver	Dynamite
Barbed Wire	The Automobile	The Motorcycle	The Battery	The Seed Drill
The Thermometer	Steam Engines	The Submarine	The Parachute	Matches
Wrenches	Balloons	Stethoscope	The Power Loom	Staplers
